

Hey, I'm Charles Gazal

I am an industrial designer whose goal is to put the user experience of the product at the forefront of any project on which I work. I believe in simple design and in creating satisfying and meaningful interactions for users.

My goal for any project is to blend minimalistic design with intuitive interactions. I focus largely on prototyping and user testing, in order to determine what appeals most to potential users on both a tactile and aesthetical level.

WORK EXPERIENCE

Junior Industrial Designer **2020 - 2023**
SURFACEID | Montreal, QC

- Created sketches and prototypes based on client needs that led to successful production (e.g. *fanny pack for hiking dog owners*).
- Prepared a successful crowdfunding campaign for an innovative iPad accessory and advertised it through an interactive website and ad designs.
- Performed changes to designs and created jigs and molds that facilitated production and reduced manufacturing costs (e.g. *bus smart signage, badminton training device*).
- Worked with engineers and other industrial designers to brainstorm features & mechanisms for the newest product in the lineup of an existing in-house brand.

Industrial Design Intern **Summer 2018**
SURFACEID | Montreal, QC

- Analyzed and organized assembly methods for complex products in order to increase productivity & documented the process for future assemblies of the products.
- Examined products at the late stages of design, identified manufacturing and technical issues, and recommended design solutions to improve them.

Industrial Design Intern **Summer 2017**
F&Y | Montreal, QC

- Created technical drawings resulting in more accurate manufacturing of products (e.g. *restaurant chairs, hanging bar unit*).
- Researched user interactions and demographics of existing products in order to produce informed designs.

EDUCATION

Bachelor of Industrial Design **2019**
CARLETON UNIVERSITY | Ottawa, ON
Graduated with a minor in business

Industrial Design Foundation Year **2015**
Cambridge School of
Visual & Performing Arts | Cambridge, UK

SKILLS

PERSONAL SKILLS

- Problem solving
- Attention to detail
- Teamwork
- Communication
- Leadership

DESIGN SKILLS

- User research
- Concept ideation
- Prototyping
- CAD modeling
- Graphic design

LANGUAGES

- English - fluent
- French - fluent
- Swedish - learning

SOFTWARE SKILLS

- Solidworks
- Fusion 360
- Keyshot
- Adobe Illustrator
- Adobe InDesign
- Adobe Photoshop
- Adobe Premiere
- Final Cut Pro
- Microsoft Office
